MAKING SENSE OF DATA

Donald J. Wheeler

Contents

| | About the Author Introduction | | |
|---------------|-------------------------------|---|----|
| | | | |
| Chapter One | Why Continual Improvement? | | 1 |
| | 1.1 | What is Quality? | 3 |
| | 1.2 | The Three Questions | 5 |
| | 1.3 | Summary | 6 |
| Chapter Two | Visualize Your Process | | 7 |
| | 2.1 | Brainstorming | 7 |
| | 2.2 | Flowcharts | 8 |
| | 2.3 | Constructing Flowcharts | 12 |
| | 2.4 | Deployment Flowcharts | 17 |
| | 2.5 | PERT Diagrams | 18 |
| | 2.6 | Do People Really Do This Stuff? | 21 |
| | 2.7 | Processes and Systems | 23 |
| | 2.8 | Cause-and-Effect Diagrams | 24 |
| | 2.9 | Exercises | 27 |
| Chapter Three | Collecting Good Data | | 31 |
| | 3.1 | What Are You Trying to Do? | 31 |
| | 3.2 | Operational Definitions | 33 |
| | 3.3 | Counts, Categories, and Types of Data | 35 |
| Chapter Four | Visualize Your Data | | 39 |
| | 4.1 | Running Records | 39 |
| | 4.2 | Bar Charts | 43 |
| | 4.3 | Pareto Charts | 46 |
| | 4.4 | Histograms and Stem-and-Leaf Plots | 52 |
| | 4.5 | Summary of Bar Charts and Running Records | 58 |
| | 4.6 | Pie Charts | 62 |
| | 4.7 | Exercises | 63 |
| Chapter Five | Graphical Purgatory | | 69 |
| | 5.1 | Computer-Generated Bar Charts | 70 |
| | 5.2 | Computer-Generated Running Records | 72 |
| | 5.3 | Stacked Bars and Linear Pie Charts | 75 |
| | 5.4 | Radar Plots | 76 |
| | 5.5 | Improving the Two Best Computer Graphs of Table 5.1 | 79 |
| | 5.6 | Summary | 80 |
| | | | |

υ

| Chapter Six | Some Arithmetic | | 81 |
|---|--|--|--|
| | 6.1 | Measures of Location | 81 |
| | 6.2 | Measures of Dispersion | 83 |
| | 6.3 | Numerical Summaries and Data Types | 86 |
| | 6.4 | Ratios, Percentages, and Proportions | 87 |
| | 6.5 | How Many Digits Do You Need? | 90 |
| | 6.6 | Comparing Apples and Oranges | 91 |
| Chapter Seven | Visualize Your Process Behavior | | 95 |
| | 7.1 | Two Types of Variation | 95 |
| | 7.2 | Two Types of Action | 97 |
| | 7.3 | The Basic Process Behavior Chart: the XmR Chart | 99 |
| | 7.4 | An XmR Chart for Accounts Receivable | 102 |
| | 7.5 | Exercises | 104 |
| Chapter Eight | Interpret | ing the Process Behavior Chart | 107 |
| | 8.1 | What Do Predictable Processes Look Like? | 107 |
| | 8.2 | Detecting Strong Signals and Weaker Signals | 108 |
| | 8.3 | Why Johnnie Can't Breathe | 113 |
| | 8.4 | The Voice of the Customer and the Voice of the Process | 115 |
| | 8.5 | Summary | 117 |
| | 8.6 | Exercises | 118 |
| | | | |
| Chapter Nine | Using X1 | nR Charts Effectively | 121 |
| Chapter Nine | Using X1 9.1 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts | 121 121 |
| Chapter Nine | Using X 9.1 9.2 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart | 121 121 123 |
| Chapter Nine | Using X1 9.1 9.2 9.3 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe | 121 121 123 129 |
| Chapter Nine | Using X1 9.1 9.2 9.3 9.4 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story | 121 121 123 129 134 |
| Chapter Nine | Using Xr 9.1 9.2 9.3 9.4 9.5 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? | 121 121 123 129 134 140 |
| Chapter Nine Chapter Ten | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts | 121 123 129 134 140 141 |
| Chapter Nine Chapter Ten | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? | 121 123 129 134 140 141 |
| Chapter Nine Chapter Ten | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range | 121 123 129 134 140 141 145 |
| Chapter Nine Chapter Ten | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data | 121 123 129 134 140 141 141 145 149 |
| Chapter Nine Chapter Ten | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises | 121 123 129 134 140 141 141 145 149 151 |
| Chapter Nine Chapter Ten Chapter Eleven | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 What Ma | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises | 121 123 129 134 140 141 145 149 151 155 |
| Chapter Nine Chapter Ten Chapter Eleven | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 What Ma 11.1 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises | 121 121 123 129 134 140 141 145 149 151 155 |
| Chapter Nine Chapter Ten Chapter Eleven | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 What Ma 11.1 11.2 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises Hees the <i>XmR</i> Chart Work? The Logic Behind Process Behavior Charts Why Three-Sigma Limits? | 121 121 123 129 134 140 141 141 145 149 151 155 155 157 |
| Chapter Nine Chapter Ten Chapter Eleven | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 What Ma 11.1 11.2 11.3 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises Nees the <i>XmR</i> Chart Work? The Logic Behind Process Behavior Charts Why Three-Sigma Limits? The Wrong Way to Compute Limits | 121 121 123 129 134 140 141 145 149 151 155 157 161 |
| Chapter Nine Chapter Ten Chapter Eleven | Using Xr 9.1 9.2 9.3 9.4 9.5 How to C 10.1 10.2 10.3 10.4 What Ma 11.1 11.2 11.3 11.4 | <i>nR</i> Charts Effectively Comparing Groups Using Process Behavior Charts The "Has a Change Occurred?" Chart Why Susie <i>Can</i> Breathe A Clinical Report: Peter's Story How Do You Use These Charts for Continual Improvement? Create Good Charts What Kind of Data Belongs on an <i>XmR</i> Chart? Using the Median Moving Range Charting Adjusted Data Exercises bkes the <i>XmR</i> Chart Work? The Logic Behind Process Behavior Charts Why Three-Sigma Limits? The Wrong Way to Compute Limits But How Can We Get Good Limits From Bad Data? | 121 121 123 129 134 140 141 145 149 151 155 157 161 163 |

Using the Median Moving Range Charting Adjusted Data Exercises Exercises Exercises Here Sigma Limits? The Wrong Way to Compute Limits But How Can We Get Good Limits From Bad Data? So Which Way Should You Compute Limits? Where Do the Scaling Factors Come From? Chunky Data | 121 121 123 129 134 140 141 145 149 151 155 157 161 163 163 165 167 |

| Chapter Twelve | Avoiding Man-Made Chaos | | 173 |
|------------------|-------------------------|--|------------|
| | 12.1 | Creating Man-Made Chaos | 173 |
| | 12.2 | Description Is Not Analysis | 176 |
| | 12.3 | Charts for Each Region | 178 |
| | 12.4 | So What If We Combined All Six Regions? | 187 |
| | 12.5 | How Then Can We Compare Regions? | 189 |
| | 12.6 | Avoiding Man-Made Chaos | 190 |
| | 12.7 | A Triumph of Computation Over Common Sense | 192 |
| | 12.8 | Exercises | 194 |
| Chapter Thirteen | Charts fo | or Count Data | 199 |
| - | 13.1 | Counts and Measurements | 199 |
| | 13.2 | Areas of Opportunity | 201 |
| | 13.3 | Collecting Good Count Data | 204 |
| | 13.4 | Charts for Counts | 205 |
| | 13.5 | Charts for Rates Based on Counts | 207 |
| | 13.6 | Some Cautions About Ratios Involving Counts | 208 |
| | 13.7 | Summary | 210 |
| | 13.8 | Exercises | 211 |
| Chapter Fourteen | Tradition | nal Charts for Count Data | 213 |
| | 14.1 | Charts for Binomial Counts: the np-Chart | 213 |
| | 14.2 | Charts for Binomial Proportions: the <i>p</i> -Chart | 216 |
| | 14.3 | Charts for Poisson Counts: the <i>c</i> -Chart | 219 |
| | 14.4 | Charts for Poisson Rates: the <i>u</i> -Chart | 220 |
| | 14.5 | So How Should You Chart Count Data? | 223 |
| | 14.6 | XmR Charts for Chunky Ratios | 225 |
| | 14.7 | Process Behavior Charts for Rare Events | 229 |
| | 14.8 | Summary | 232 |
| | 14.9 | Exercises | 233 |
| Chapter Fifteen | Using Co | ount Data Effectively | 235 |
| | 15.1 | Three Characteristics of Count Data | 235 |
| | 15.2 | The Problems of Aggregation | 237 |
| | 15.3 | The Difference Between Aggregations and Summaries | 240 |
| | 15.4 | The Power of Disaggregation | 242 |
| | 15.5 | Disaggregation Across Workers | 245 |
| | 15.6 | Disaggregation Across Problems | 251 |
| | 10.0 | | |
| | 15.7 | Ratios of Aggregated Measures | 256 |
| | 15.7 15.8 | Ratios of Aggregated Measures The Cumulative Effect of Reducing Variation | 256 259 |
